WALLY Test

This test consists of questions designed to catch your sense of humor and lateral thinking. Be warned! Every low, nasty trick was used. Write down the answer to each question as soon as possible after reading it. You have 2 minutes to complete the test.

1. What is twice the half of 1 3/7?

2. If two peacocks lay two eggs in two days, how many eggs can one peacock lay in four days?

3. How many cubic feet of earth are there in a hole measuring 3 feet wide by 4 feet long by 5 feet deep?

4. Do you know how long cows should be milked?

5. Where was Queen Cleopatra's temple?

6. In what month do Americans eat the least?

7. How many marbles can you put in an empty bag?

8. The greengrocer stands 6 feet tall, has a 46-inch chest, and wears size 12 shoes. What do you think he weighs?

9. If a duck came paddling down the Nile, where would it have come from?

10. How long will a seven-day grandfather clock run without winding?

(WALLY Test, World Association for Laughter, Learning, and Youth, Great Lateral Thinking Puzzles, Sloan and MacHale, page 12)

DO NOT LOOK AT THE ANSWERS UNTIL YOU HAVE REALLY TRIED....
